D. DELIVERABLES

D.1 WARRANTY

The Furniture, Fixtures and Equipment shall be covered by warranty on all parts, components, and after sales services for a period of one (1) year after its inspection and acceptance by the Procuring Entity.

D.2 DOCUMENTATION

1. To be included in the Technical Bid Documents are the following:

1.1 For furniture, fixtures and equipment – brochures

showing the specifications of the product being offered.

1.3 For Fire Alarm System & Intercom System – brochures showing

actual

photo and specifications of the materials to be used.

2. Submission of Warranty Certificate.

E. INSPECTION AND TESTS

The Philippine Ports Authority-PMO Palawan shall have the right to inspect and/or test the goods to confirm conformity with the Contract. The winning bidder shall furnish test equipment, instrumentation, personnel and supplies necessary to perform all testing. PPA- PMO Palawan shall be given a five (5) working day notice prior to tests.

F. MAINTENANCE/TECHNICAL SUPPORT

- During the warranty period, the vendor shall provide highly technical personnel to service all the equipment including its components/peripherals whenever hardware breakdown and/or any related problem should occur.
- On call support shall be available 24 hours a day, 7 days a week. A one (1) hour response from time of the call (through telephone call) shall be provided.
- On-site support must have a response time of not more than 4 hours from the time of the call in cases when the phone support could not solve the problem.
- On hardware repair, testing shall be done on-site to know the extent of the problem. All components beyond repair shall be replaced at no cost during the warranty period. Service units should be available for the system and peripherals a day after testing and diagnosis for replacement of the defective unit(s).
- The winning bidder must provide expert personnel to service the equipment whenever any related problem should occur.
- The winning bidder must shoulder all expenses of the technical person(s) who will be providing the technical services on-site.

G. AVAILABILITY

- The winning bidder must provide pro-active maintenance support that automatically generates report and ends notification to the manufacturers 24 x 7 call support centers in cases of system abnormality so that component will be replaced and errors will be fixed before failure occurs.
- Hardware components that cannot be repaired must be provided with a service unit. Service unit and/or replacement parts must be available at all times.
- The component(s) that has been replaced must be operational within four (4) hours including response time of two (2) hours.
